

OUR VALUES

doing good work
at a fun place
with a hard-working bunch
to make an impact

- Doing good work has been at the core of our values since our birth. We create *meaningful*, quality work and we thoughtfully consider the opportunities we pursue. In taking on new work, we always ask the question, “does the work fit with our mission?”
- Where you do your best work is of paramount importance to PRA. We promote a *positive work environment* by offering rich benefits, encouraging work-life balance, and providing plenty of opportunities to unwind!
- Days go by fast at PRA! there is a lot of (good) work to be done, and we are *committed* to being *responsive* to the needs of our clients and *innovative* in our approach to creating solutions.
- We are (and have been) at the forefront of systems change. *Making an impact in the field* has been a pillar of PRA's value system since its inception, and we continue to advance the field in our areas of expertise.
