

Want to Improve Your Correctional Healthcare?

Use the RFP Toolkit!

A new, **free** resource from Policy Research Associates, the **Toolkit for Writing an RFP to Contract for Healthcare Services in a Correctional or Detention Institution**, helps correctional and detention facilities create effective, outcome-focused requests for proposals (RFPs) for healthcare services.

Providing high-quality correctional healthcare is a complex challenge. Creating an effective RFP requires in-depth knowledge of healthcare systems. Some facilities utilize existing contract language from neighboring jurisdictions, which isn't tailored enough to the facility's specific population and needs.

The **Correctional Healthcare RFP Toolkit** guides facilities through the process of:

- Determining your best healthcare model (should you outsource at all?)
- Preparing to draft an RFP
- Creating the RFP using the included RFP template
- Issuing your RFP and increasing visibility
- Evaluating and scoring vendor responses
- Negotiating a final contract
- Managing your contract and any amendments

Use the new free Correctional Healthcare RFP Toolkit!

Developed by a team of experts, with contributions from over 20 national organizations, **the Correctional Healthcare RFP Toolkit** includes a customizable RFP Template. It is based on real-world experience and is regularly updated to reflect best practices.

The user-friendly, 160-page **RFP Template** covers:

- Key events timeline
- Description of your facility
- Vendor staffing
- Communication and training
- Data and information sharing
- Cost modeling, billing, and recovery
- Contract performance monitoring and KPIs
- Specific information for states with Medicaid Reentry Section 1115 Demonstration Waivers
- Comprehensive health services (medical, mental health, dental, specialty care, women's health, substance use/MOUD, hearing and sight, care in restrictive housing units, end-of-life care, medication, diet and nutrition, post-release care)
- And more!

**Includes a
customizable
RFP Template**

Potential Benefits of Improving Your Correctional Healthcare Contract

- Increase safety & decrease risk of lawsuits
- Provide better medical, mental health, & substance use care
- Reduce preventable & facility-attributable deaths
- Enhance cost efficiencies through clear expectations to vendors
- Improve provider accountability through performance measures
